

Decking & Pond Dipping Platforms

This platform is robustly made in iroko and is installed in situ with hardwood piles driven down to a sound base.

It offers a large amount of safe pond dipping space, with spectator/supervisors seats (or tables on which to place your bowls and examine your catch) and also provides safe and easy wheelchair access with safety rails and kerbs throughout.

Wheelchair users can then easily join in the fun, dipping from the sides of the platform should the safety rail prove a hindrance. The boardwalk covers boggy ground and ensures safe, easy and clean access to the platform.

Price from £5,500.00

Swan Seat

This is a themed swan seat which has been sited within a playground to provide seating and relaxation for parents watching their children.

It has become a source of wonderment for the children, even though it is not a direct piece of play equipment.

Price from £2,100.00

Dimensions:

Length	3000mm	(9'10"ft)
Width	1200mm	(3'11"ft)
Height	2100mm	(6'11"ft)
Weight	250kg	(551lb)

Picnic Tables

These treated softwood picnic tables have integral seats for stability and to reduce the potential for untidiness and vandalism.

They are designed to accommodate up to three wheelchair users and six able bodied people each, and are ideal for visitor centres, pubs and outdoor attractions, particularly where a high ratio of disabled visitors is expected.

Price from £480.00

Dimensions:

Length	2900mm	(9'6"ft)
Width	2900mm	(9'6"ft)
Height	900mm	(2'11"ft)
Weight	100kg	(220lb)
