

Slides

Our slides are constructed from hardwood with stainless steel sliding surfaces and a safety run off. Slides are available in a variety of sizes, finishes and shapes and can be designed to fit new or existing play equipment.

Price from £650.00

Dimensions: Typical slide

Length: 2000mm (6'7") x Width: 500mm (1'8")
x Height: 1600mm (5'3") Weight: 180kg (397lb)

Grey lexan sliding surface

Sturdy hardwood slide with stainless steel surface

Sliding Poles

Sliding poles are a space saving and cost effective playground element. Our poles are available in stainless steel or powder coated mild steel in a variety of colours. They take up little space and provide another exciting means of exit from taller structures.

Price from £420.00 including timber gallows

Dimensions: Typical pole

Width: 600mm (2') x Height: 2800mm (9'2")

Weight: 130kg (287lb)

Also, available in a range of powder coated colours

Stainless steel sliding poles

All prices exclude VAT, delivery and installation. The dimensions listed are approximate.

Our sliding equipment currently includes slides, sliding poles and zip wires for children aged 2+. They are ideal as stand alone play equipment or to add to new or existing play grounds and play centres.
